REMARKS <span style="border: 1px solid black; padding: 2px;"> </span>		
25X1		

The following Soviet rail movements were observed in GOEPFRITZ (O 49/R 64):

4 to 6 November 1949: Thirteen trains carrying troops and material were dispatched. Seven trains carried guns of about 120 mm caliber. The trains consisted of 14 flatcars and 10 to 12 boxcars each, as was observed on previous days. The same trucks hauled troops and guns to the railroad station on the three days.

7 to 15 November 1949: No rail movements.

16 November 1949: A train of 34 tank cars filled with fuel arrived.

16 to 19 November 1949: Eight troop trains of about 25 railroad cars each arrived. The troops on two trains wore black-bordered red epaulets. The load and composition of five more trains which arrived in GOEPFRITZ during that period could not be learned. Quarters equipment was unloaded from the observed trains and trucked to the troop camp. The detrained troops marched toward MORNENBURG (O 49/R 64).

17 November 1949: A train of 42 boxcars loaded with ration supplies arrived.

Comment:

- a. The trains which were dispatched between 4 and 6 November 1949 carried troops returning to their military posts from the DOEBERSHEIM troop training grounds.
- b. The arrival in GOEPFRITZ of Soviet troop trains in November 1949 can be interpreted only that units (recruit units?) may be stationed in DOEBERSHEIM throughout the winter months.
